

- Materials used inside the appliance are recyclable and are labelled with information concerning this. By recycling materials or other parts from used devices you make a significant contribution to the protection of our environment.

Packaging

The packaging is recyclable. The recommended modus operandi is:

- Dispose of any paper and cardboard into the corresponding containers.
- Dispose of any plastics into the corresponding containers.
- If a suitable container is not available in your residential area, you can dispose of these materials with your domestic waste; but it would be better to take it to an appropriate facility for waste recycling.

Warning!

While unpacking, the packaging materials (polythene bags, polystyrene pieces, etc.) should be kept away from children. **DANGER OF SUFFOCATION!**

Materials with this symbol on are recyclable.

- > PE < = Polyethylene
- > PS < = Styrofoam
- > PP < = Polypropylene

These materials can be recycled when you depose them of in a suitable collecting container of your local facilities.

Appliance

- Do not dispose of the appliance with your domestic waste.
- Waste separation is essential so that the single components of the appliance will be recycled according to their appropriate use.
- Do not dispose of electric appliances as unsorted domestic waste. Use the local or municipal facilities for waste separation.
- If electric appliances are disposed of at landfills, substances which are dangerous to one's health can get into the ground water. Such substances will become part of the food chain and cause damage to your health.

Please contact your local authorities to receive detailed information regarding waste separation.

Safe disposal

- Before you dispose of an old appliance, **render it inoperative**.
 1. Always remove the plug from the socket. Afterwards cut off the power cord directly at the appliance. Dispose of the power cord with the plug immediately.
- Receive more detailed information from your retailer or your local and municipal facilities.

10. GUARANTEE CONDITIONS

Guarantee conditions for large electric appliances

This appliance was made and checked according to the most modern production methods. This appliance includes a 24-month guarantee **for the consumer** given by the manufacturer, dated from the day of purchase, referring to its flawless material-components and its faultless fabrication.

The consumer is accredited with both the dues of the guarantee given by the manufacturer and the vendor's guarantees. These are not restricted to the manufacturer's guarantee.

The guarantee is valid without prejudice to stringent legal liability regulations, e.g. the product liability law, in the case of malice and of wanton negligence in view of harm of life, body or health by NEG or its agents.

The right on the guarantee is not granted, when the purchase is made in the course of a commercial activity.

The guarantee claim has to be verified by the vendee by submitting a proof of purchase including the date of purchase and/or the date of delivery. This has to be reported to us or to our after sales service in the Federal Republic of Germany. This report has to be made **immediately after the detection and within 24 months** after the delivery to the first ultimate vendee.

The guarantee for our appliances is valid under the following conditions:

Defects of the appliance which are verifiably caused by material or fabrication deficiency will be rectified free of charge by our after sales. When the defect appears within 6 months we suppose that there is a material or fabrication deficiency.

Within the guarantee we will repair deficient components free of charge using components of our own choice or they will be replaced by flawless components. Appliances, which can, due to their dimensions, be reasonably transported by an automobile, should be given over or submitted to our after sales.

If the repair work is refused by us or if the repair work finally fails, the old appliance, if requested, will be replaced by an appliance of the same kind, quality

and type within the period of guarantee. If the old appliance is no longer produced at the time the defect occurred, NEG will be entitled to deliver a similar appliance. The exchange of the appliance principally takes place in the shop the first vendee bought the appliance in unless the appliance is too large to be transported by the vendee. The guarantee does not establish any entitlement to withdraw from the purchase contract or for a price reduction.

Replaced components or exchanged appliances demise to us as our property.

The guarantee claim does not cover:

1. Fragile components as plastic, glass or bulbs;
2. Minor modifications of the respekta-products concerning their authorized condition if they do not influence the utility value of the product;
3. Damage caused by handling errors or false operation;
4. Damage caused by aggressive environmental conditions, chemicals, detergents;
5. Damage caused by non-professional installation and haulage;
6. Damage caused by non common household use;
7. Damages which have been caused outside the appliance by a respekta-product unless a liability is forced by legal regulations.

The validity of the guarantee will be terminated if:

1. The prescriptions of the installation and operation of the appliance are not observed.
2. The appliance is repaired by a non-professional.
3. The appliance is damaged by the vendor, the installer or a third party.
4. The installation or the start-up is performed inappropriately.
5. The maintenance is inadequately or incorrectly performed.
6. The appliance is not used for its intended purpose.
7. The appliance is damaged by force majeure or natural disasters, including, but with not being limited to fires or explosions.

The guarantee claims neither extend the guarantee period nor initiate a new guarantee period. The guarantee period for installed replacement parts ends with the guarantee.

Provided that a product-related malfunction is not covered by this guarantee the vendee has to bear the cost, when the appliance is checked, including any labour costs that may arise.

If the holder of the guarantee has requested repair work, then the holder of the guarantee must be informed about the non-intervention of the guarantee and possible costs, that may arise, and thereafter he must bear all costs for spare parts and wages.

The geographical scope of the guarantee is limited with respect to appliances, which are purchased and used in Germany, Austria, Belgium, Luxembourg and the Netherlands.
